

Supplies:

Cardboard Rolls

Scissors

Paint in desired colors

Paper

How to make cardboard roll stamp flowers:

Step 1: Cut some petals into the top third of your roll and then spreading the petals out.

You can experiment with different shaped petals.
There's no end to what you can do.

Step 2: Dunk the petals into some paint and stamp them onto your page.

Step 3: Add some yellow paint circles into the middle of your flowers with your thumb or you could glue different colored buttons to the centers if you would prefer.
